FERTILITY STATUE

The Fertility Statue has been on display for over four years and so far we have had over 1,000 confirmed pregnancies. People have been coming to us every week telling us of their success. We have had all kinds of women trying their luck, from women who have been trying for 18 years to women who have been on fertility treatment and been unsuccessful.

One touch of this amazing figure and they have fallen pregnant within three months. Come and try for yourself, one touch and you could be lucky!

UNBELIEVABLE

ANIMAL ODDITIES TWO HEADED CALF

Farmer Paul Springer of Texas first discovered these strange creatures when one was born on his farm. The first calf that was born onto his farm was called Baldaquard, when he passed on, Paul had him preserved and donated him to Ripley's®.

DRIFTWOOD HORSE

People have been building wooden horses at least since the Trojan War, but in Indonesia, Believe it or Not!, artisans sculpt wooden horses made completely from naturally formed pieces of driftwood found on beaches.

TOTALLY TRUE MIND BLOWING

THE PRINCESS PENNY PORTRAIT

Taking centre stage in the upper floor of the museum of oddities is an incredible portrait of Princess Diana. Unlike most portraits created from paint, this one is made using penny coins, 2500 of them to be exact!

UNUSUAL AMAZING

WORLD'S SMALLEST PRODUCTION CAR

See the world's smallest production car, the Peel Trident. The new mini motor takes centre stage at Ripley's – but is no stranger to the limelight after featuring on Top Gear and more recently on Dragons Den.

INCREDIBLE

JOHNY ECK

Johny Eck was born with a truncated torso due to sacral agenesis with no legs. At birth, he weighed two pounds and was less than eight inches in length.

He would eventually reach 18 inches tall and aside from the sacral agenesis, he was otherwise healthy.

TRUTH IS STRANGER THAN FICTION 100% GENUINE
