

GURNING EMOJI ART

Directions: Create your very own "gurning" emoji below. The word "emoji" came from the Japanese words "picture" and "character." It way it looks like the English words "emotion" and "emoticon" is a happy accident!

GURNING is when a person pulls a funny

face usually with their jaw. Believe It or Not!

The World Gurning Championships take place in England, with contestants making the ugliest face possible!
